

## Produce Import and Export of Narcotics

### Narcotics

#### **Ministerial Regulation re; Application for permission to produce, import or export the Narcotic in Category type 2 B.E.2563 (2020) (“Ministerial Regulation”)**

The Narcotic in Category type 2 is regarded as common drug under the Narcotic Act of Thailand B.E. 2522 (1979) including coca, cocaine, morphine, medicinal opium or opium.

The main objective of the Ministerial Regulation is that the previous ministerial regulation is no longer appropriate to the present situation and rules and conditions of the previous ministerial regulation must be amended for the benefit of law enforcement

Any person, who would like to produce, import or export this kind of the Narcotic, is obliged to apply for the permission to do so for any of the purposes as follows;

1. For use in medical profession within a country;
2. For analysis or medical or scientific research;
3. For protection and prevention of any offense arisen from the Narcotic; and
4. For the compliance with the resolution of the United Nation Commission on Narcotic Drugs in case where the patients ,during international travel, carry in or out the Kingdom of the Narcotic type 2 with the purpose of the personal treatment of not more than 90 days.
